

OPEN COURSES CALENDAR 2026-2027

In line with its mandate, Rwanda Standards Board (RSB) continues to provide knowledge and skills in standards implementation to both public and private sector organizations. These efforts complement national initiatives to offer products and services of better quality and position these organizations to a higher competitive edge at national, regional and international levels.

This is done by offering training on the implementation of various standards for management systems, products and service as well as technical assistance for organizations seeking to apply standards relevant to their sectors.

It is against the above background that RSB is pleased to inform the public that eight (08) open course trainings are planned for the Financial Year 2026-2027 as outlined in the open courses calendar below.

The registration link for each training will be shared with its respective announcement to allow interested individuals and organizations to apply in due time.

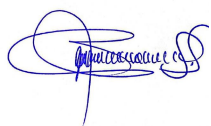

NOTE: Details on training fees and conference package costs will be provided with each training announcement.

The calendar of open training courses is as follows:
